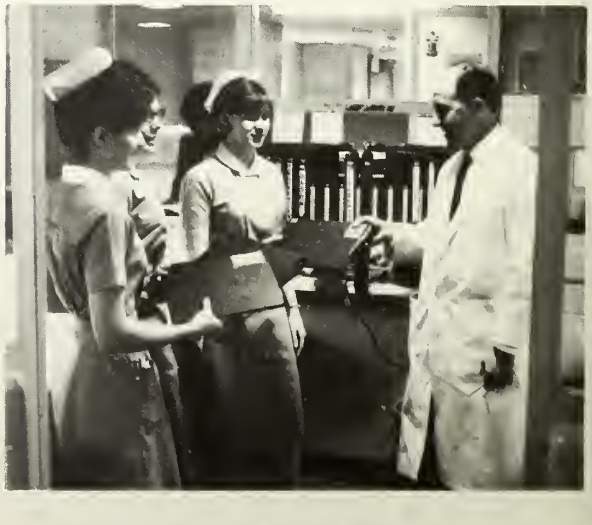
A learning experience.

Planning patient care.



A helping hand.

"He's got to be here somewhere."

"Now, which pedal?"

"How can one little bag be so heavy?"

Realistic?

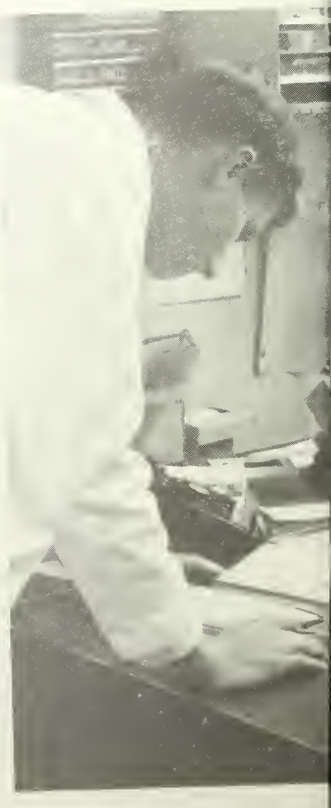
"Are you sure 1 kg. equals 2.2 lbs.?"

Patient teaching.

Early ambulation.

"Double bagging!"

To Physical Therapy and recovery.



Accuracy is utmost.

Meeting the needs of a patient.

End of a long day.

OBSTETRICS

Marion Miller - Director of Obstetric Nursing, June Schurz, Reba Cash, Barbara Van Droof.

Babies are bits
of stardust
blown from the
hand of God. .
Lucky the woman
who knows the
pangs of birth,
for she has held
a star.

Larry Barretto

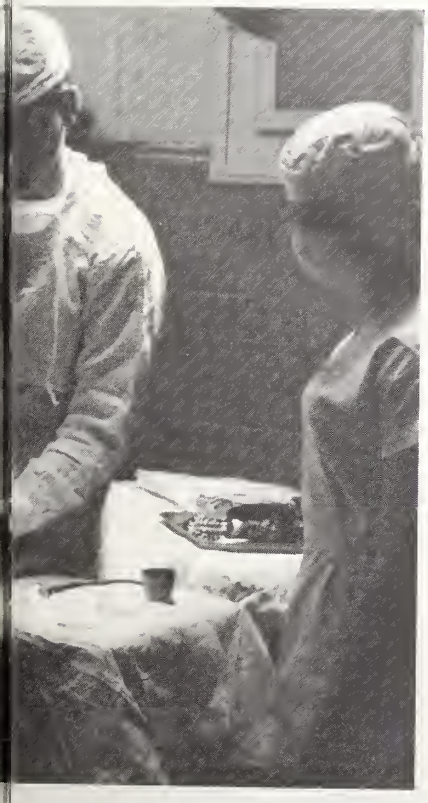
The beginning of . . .

. . . a long wait

Essential.

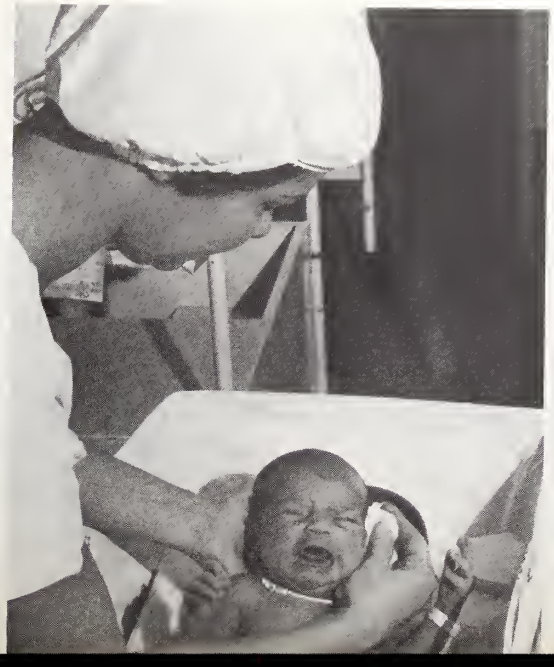
The finest of our precision watches,
lossal of our super-cargo planes,
a newborn baby in the number and
and springs, in the flow and change
lutions, in timing devices and inter
are irreplaceable.

Time to get ready.



Would you believe?

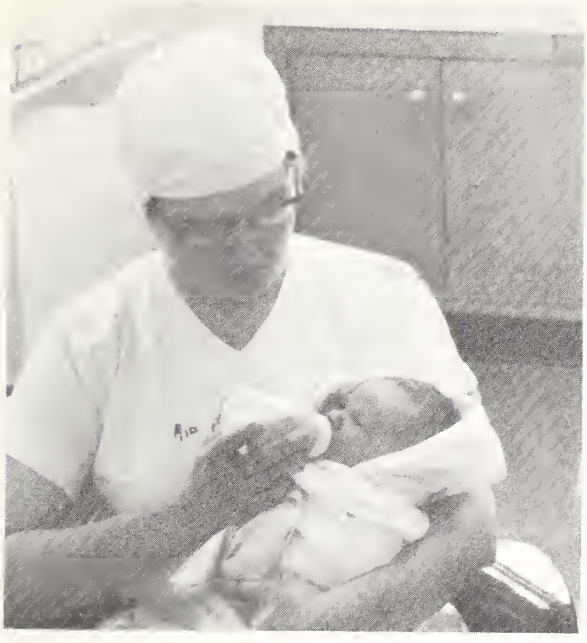
the most superco-
don't compare with
ingenuity of coils
of chemical so-
related parts that
Carl Sandburg



The finished product.

The first physical.

Patient teaching is important in all areas.



Happiness is . . .

Life is a flame that is always burning itself out, but it catches fire again every time a child is born.

George Bernard Shaw

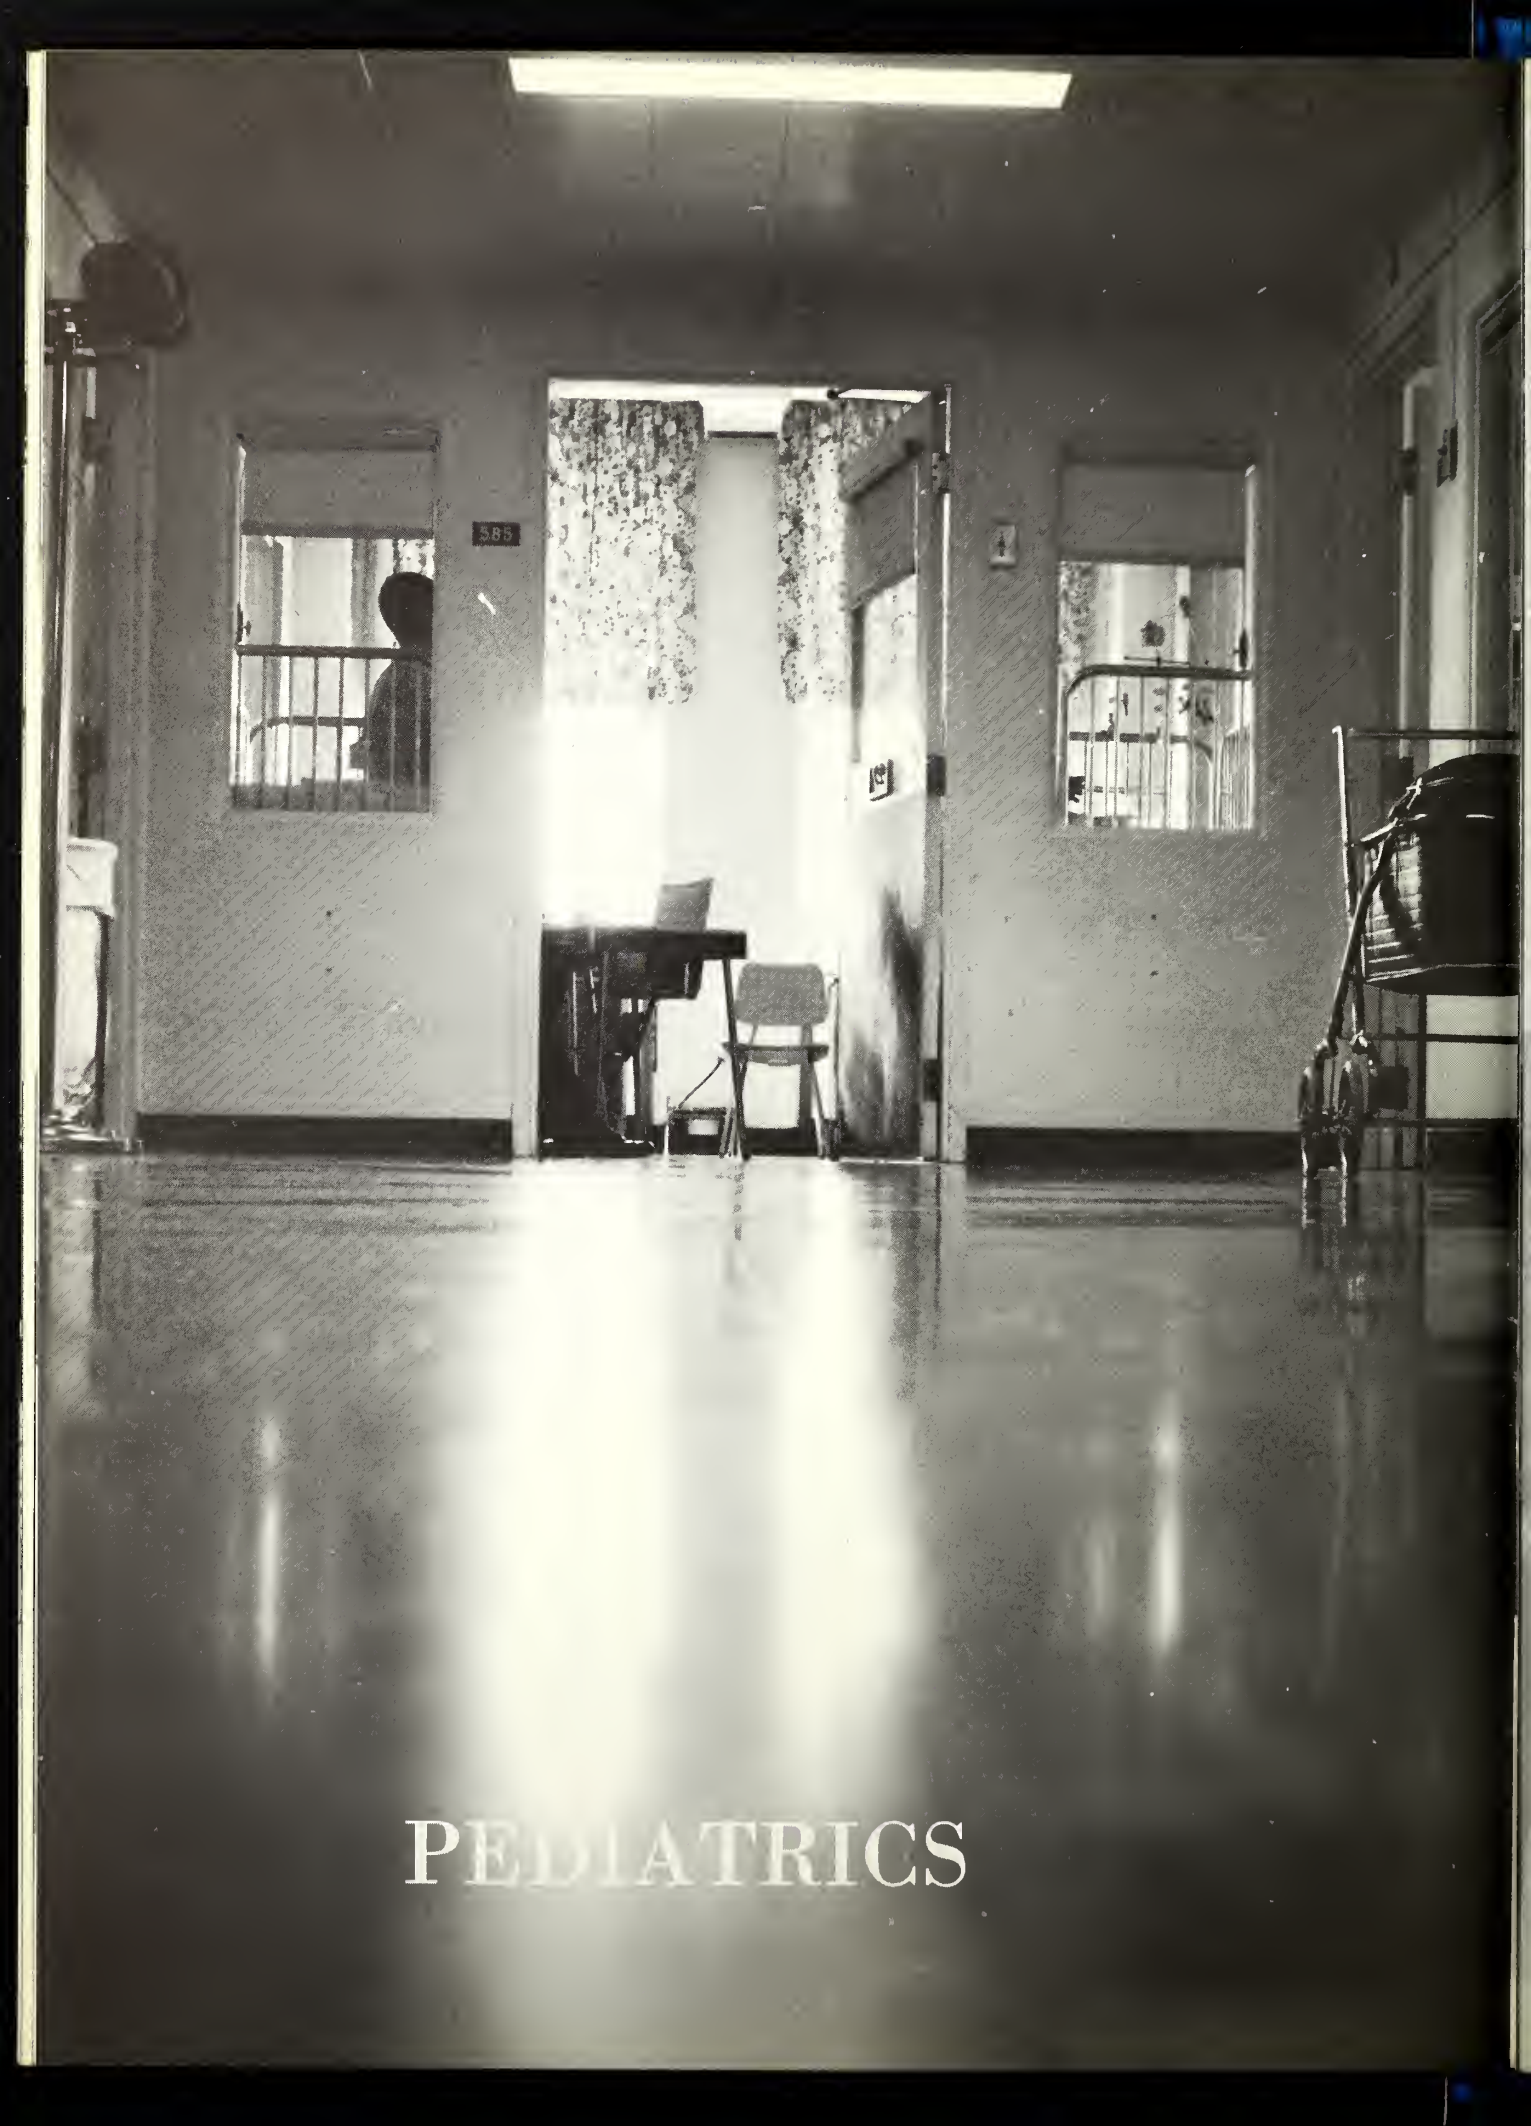
The greatest forces in the world are not the earthquakes and the thunder bolts. The greatest forces in the world are babies.

E. T. Sullivan

Fragile! Handle with care.

Home - going.

The goal is reached.



PEDIATRICS

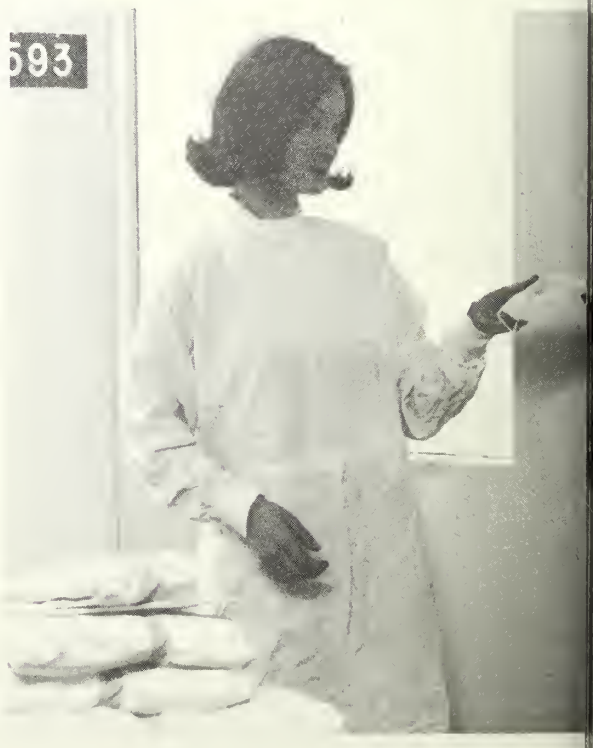
Carol Gowallis, Ruth Dales, Mary Ford. *Not pictured:* Dorothy Hughes - Director of Pediatric Nursing.

Of all the dear sights in the world, nothing is so beautiful as a child when it is giving something. Any small thing it gives. A child gives the world to you. It opens the world to you as if it were a book you'd never been able to read. But when a gift must be found, it is always some absurd little thing, pasted on crooked, an angel looking like a clown. A child has so little that it can give, because it never knows that it has given you everything.

Margaret Lee Runbeck

Morning - a busy time.

Extra attention helps the "Mommy" blues go away.



"Haven't you

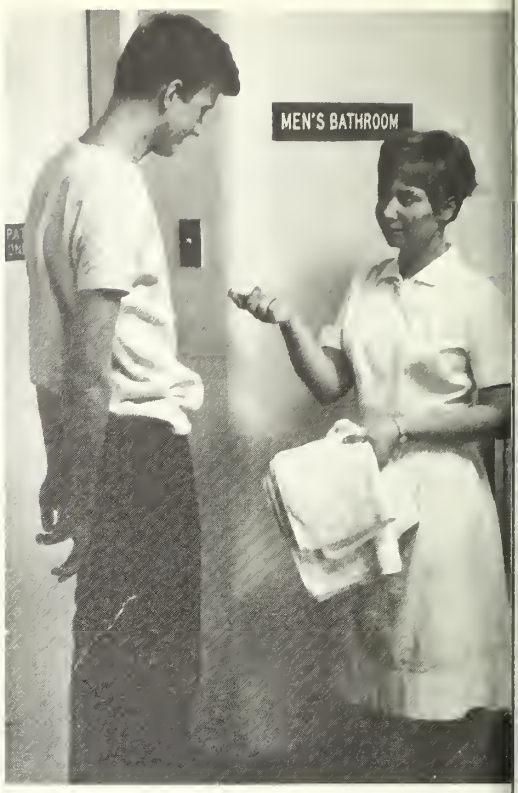
Daily weights.

Day dreams.

gotten something?"

"Nurse, my telephone won't work!"

"Is that for me?"



"Get the message?"

"Just a *little* ice cream?"

Helping a child cope with a difficult situation.

Teaching is always important.

The end of the day.

PSYCHIATRY

Katherine Clancey, Antoinette Wilkinson, Jeanette Augustine, Richard Kreisl - Director of Psychiatric Nursing, Doris Uddin.

New hope.

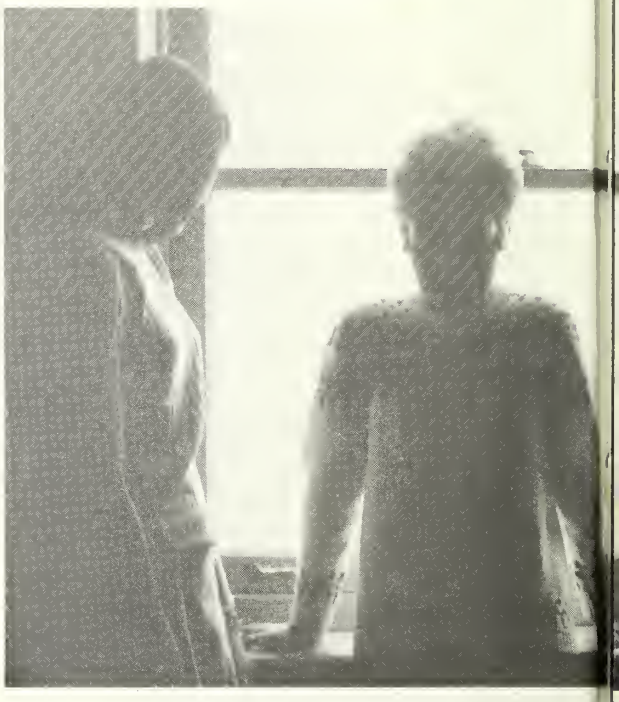
Interaction is important.

In shrouded space I hang
with no floor, no wall, no ceiling.
From no door or window will light
ever enter.
Time hangs.
Will this noose kill or loosen?

Esther Gurewitz

It's hard to join in.

Friendly encouragement.

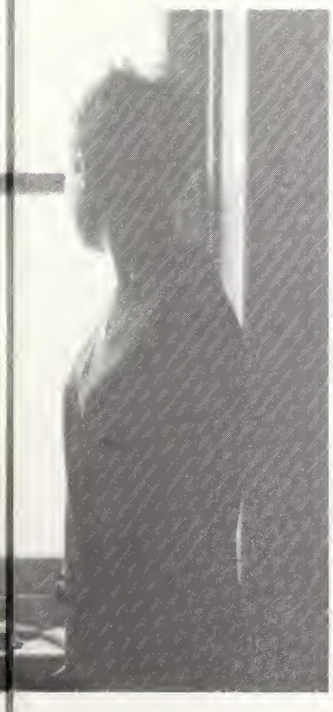


Discouragement - hard to overcome.

Activity - an important part.

The problem of
life is to
change worry
into thinking
and anxiety
into creative
action.
H. B. Walker

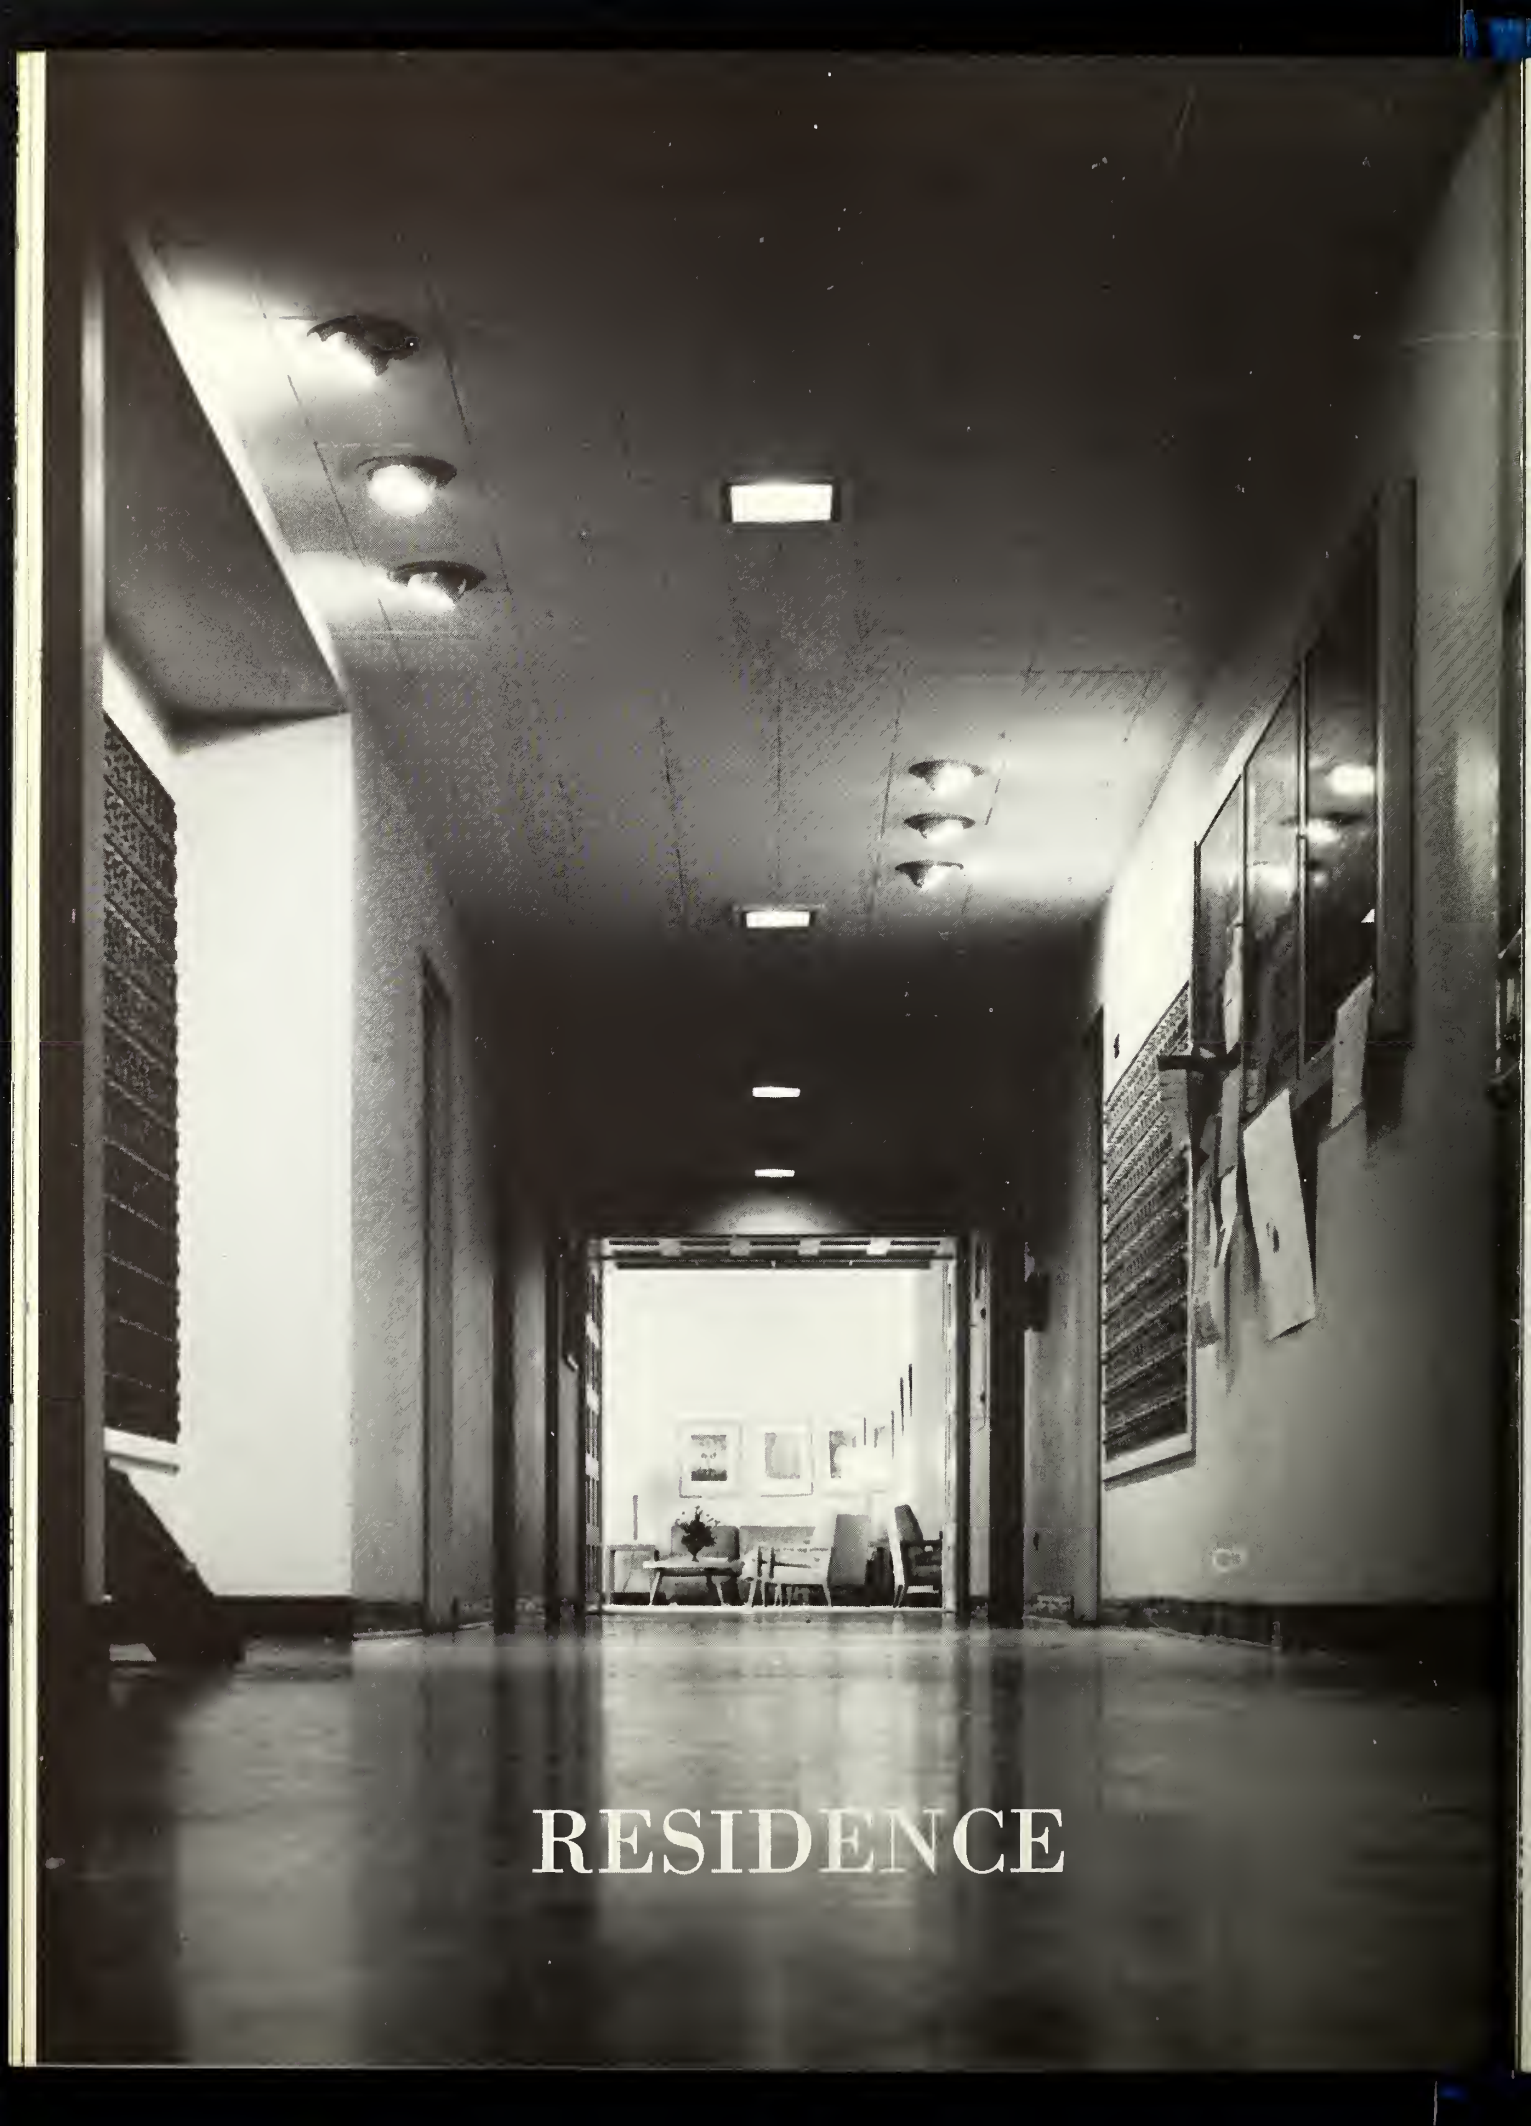
An expression of . . .



New strength flows,
trembling the
inner wall with
healing wonder.
Esther Gurewitz

A lighter side.

A door opens.



RESIDENCE

"Only five more finals to go!"

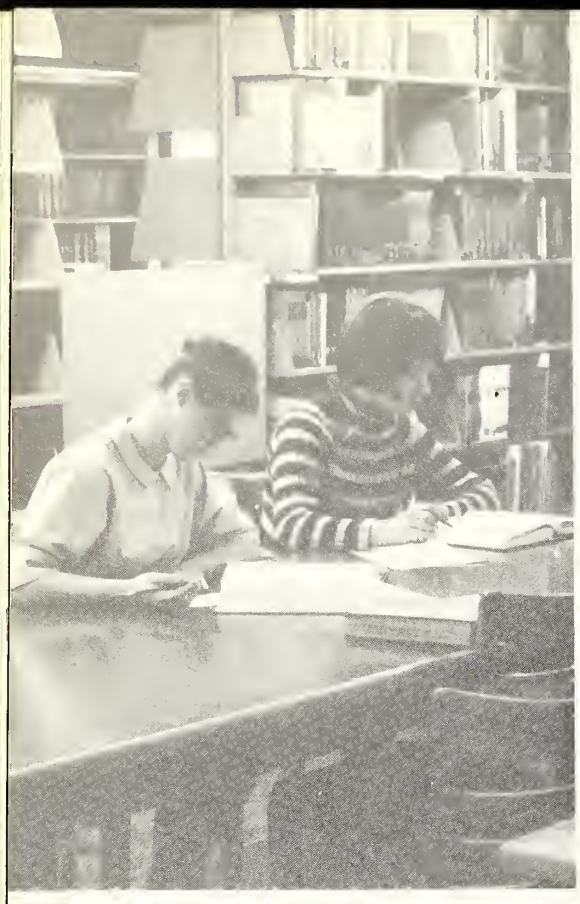
"Oh no, I forgot the eggs!"

"Will they let us by the desk?"

"Nothing like a little break between all that work!"

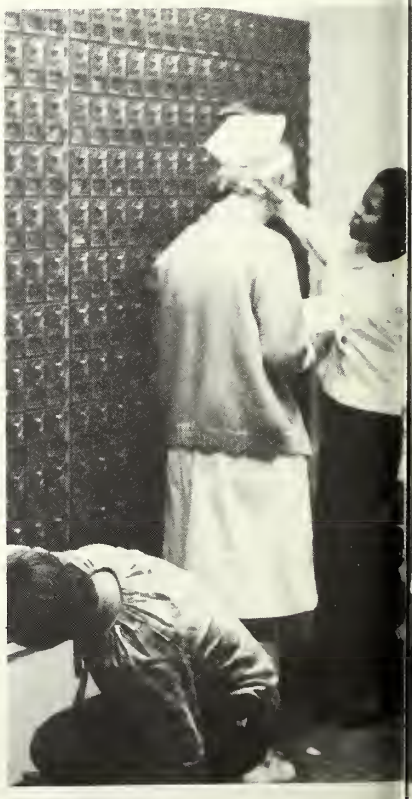
"Boy, that tickles!"

"Would you believe, I've got ten minutes to get to the floor?"



"Bib cards."

Creative!



The ballad singer.

Afternoon tea —
a friendly custom.

Patient? Nurse? A reversal of roles.

Always another lecture.
